### PURPOSE:

This program is intended to provide an economical and effective means of conserving Natural Gas through the reduction of heat loss in certain commercial and industrial buildings.

### INFORMATION TO CUSTOMERS:

The Company will provide to its Industrial Customers, general and technical information about energy efficiency services offered by the Company, and about energy efficiency programs available through the Energy Trust of Oregon (Energy Trust), that will improve the efficiency of natural gas usage. This information may be provided through various channels such as electronic newsletters, letters, direct communications, etc.

### ENERGY EFFICIENCY PROGRAMS:

The Energy Trust of Oregon has been approved to deliver and administer energy efficiency programs to NW Natural's Large Commercial and Industrial Customers. Customers may participate in such programs by contacting the Energy Trust directly, or a NW Natural representative will connect the Customer upon request.

### PROGRAM COSTS:

Program costs will be deferred annually and amortized for recovery coincident with the Company's PGA Year (November 1 through October 31) through **Schedule 188** of this Tariff.

### SPECIAL PROVISIONS:

A Customer that transfers their account to a Transportation Service Type or a Combination Service Type that includes Transportation Service within two years from the date that an incentive was issued under this Schedule may incur a one-time charge equal to the two-year proration of the total incentive amount received. The charge will be calculated as follows:

(C)  
|  
(C)

$$\text{Charge} = A/24 \times (24-B)$$

(C)

**A= Energy Trust incentive paid on the relevant account**

**B= number of months that have elapsed since the relevant incentive was issued**

**INDUSTRIAL DEMAND SIDE MANAGEMENT (DSM) PROGRAMS**  
(continued)

**SPECIAL PROVISIONS (continued):**

If multiple incentives were paid on the relevant account, a proration of each incentive repayment would be calculated. Example repayment calculations:

- A. If a customer receives a \$36,000 incentive and two months later transfers this account to Transportation Service, the repayment calculation would be as follows:

$$\$36,000/24 \times (24-2) = \$33,000$$

- B. If a customer receives a \$25,000 incentive and eight months later receives another \$25,000 incentive on the same account and subsequently transfers this account to Transportation Service four months later, the repayment calculation would be as follows:

$$\text{Incentive 1: } \$25,000/24 \times (24-12) = \$12,500$$

$$\text{Incentive 2: } \$25,000/24 \times (24-4) = \$20,833$$

$$\text{Total Repayment: } \$33,333$$

A charge will not be assessed if the total incentive amounts received by such customer are \$25,000 or less.

Amounts collected from Customers under this special provision will be credited to the deferral account and will offset program costs amortized under **Schedule 188**.

When applicable, the charge must be paid in full as a condition of the Company's approval to change Service Type. The Customer must meet all other conditions for the change in Service Type as set forth in the respective Rate Schedule.

**GENERAL TERMS:**

Service under this Schedule is governed by the terms of this Schedule, the General Rules and Regulations contained in this, any other Schedules that by their terms or by the terms of this Schedule apply to service under this Schedule, and by all rules and regulations prescribed by regulatory authorities, as amended from time to time.
