METER LOCATION REQUIREMENTS:

- *Not closer than 36" from electric meter or doorway.
- *Not below operable window, decks, structures.
- *Not below overhangs greater than 4'.
- *A minimum of 10' away from power transformers.
- *A minimum of 10' from power intakes.

EXCESS FLOW VALVE INSTALLATION INFORMATION:

1. In accordance with applicable tariffs, the Customer is responsible for all costs of the Excess Flow Valve (EFV) installation. A Facilities Relocate Agreement must be executed, and full payment (non-refundable) received prior to the EFV installation being scheduled by NW Natural.
2. For planning purposes, Customer can anticipate that the greatest cost for an EFV installation request is \$4303 for NW Natural's facilities unless flaggers are required.
3. Normal scheduling is 10 working days from receipt of signed Relocation Agreement and payment for jobs inside property. Jobs requiring a permit could take 15 working days or more depending on how long it takes to get a permit from the jurisdiction.
4. NW Natural or its agent will perform the relocation, which will be subject to NW Natural's scheduling priorities.
5. NW Natural reserves the right to designate the appropriate meter or riser location if service and meter need to be updated.
6. **FORM TO BE USED FOR NEW EFV INSTALLATION NOT UPGRADE OF EXISTING EFV**
